

Welcome Speech

Dr. Ir. Zahir Zainuddin, MSc
Head of Electrical Engineering department
Hasanuddin University

Distinguished keynote speakers from friendly institutions and countries, delegates, colleagues, ladies and gentlemen.

Good Morning. On behalf of Electrical Engineering department, Hasanuddin University, I am delighted to welcome you this morning to "International Workshop on Modern Research Method 2009" in Makassar. Thank you for being here, and for bringing your energy, ideas, and expertise. I want to give special thanks to our Steering and Organizing Committee, who initiated this project, and in whose memory this workshop is dedicated.

We are here today so that all of us – involved in research planning and development in many parts of Electrical Engineering areas – can benefit from our expertise and get guidance among us on the near- and long-term modern research development.

We are committed to enabling new advances in about the recent and future issues of researches in electrical power engineering, control engineering, electronics and computer engineering, telecommunication and informatics, and applications of nanotechnology in electrical engineering. We want share what new research opportunities are foreseeable on the horizon, and what kinds of methods have to be breached to get the best outcomes.

We are delighted to have you here, and I hope you will have a stimulating and productive seminar and workshop over the next four days.
