

* Aljabar Bagan Kotak

⇒ Hubungan serial:

$$K_1 = 2 * 3 = 6$$

⇒ Hubungan umpan maju

$$K = 4 + K_2$$

$$= 4 + 3,75$$

$$= 7,75$$

$$\boxed{K = 7,75}$$

⇒ Hubungan umpan balik:

$$K_2 = \frac{K}{1 + 0,1K_1} = \frac{6}{1 + 0,6} = 3,75$$
