## LETTER OF RECOMMENDATION

To Whom It May Concern:

**Mr. Muhammad Assahubulkahfi Al Husaini, S.Pd., M.T.** has asked that I prepare this official Letter of Recommendation to support his intention to continue his education in the field of Electrical Engineering, Informatics, Computer Science or other related area.

In 2003, Mr. Al Husaini completed his first degree (*Sarjana Pendidikan, S.Pd.*) in Electrical Engineering Education. He graduated from Makassar State University, one of prominent university in the city of Makassar. His undergraduate final project was related to controlling an electrical motor via computer network.

After his graduation, Mr. Al Husaini continued his study in our graduate program in the Department of Electrical Engineering, Hasanuddin University, Makassar, INDONESIA, to pursue his Masters degree in Engineering (*Magister Teknik, M.T.*). He has done it very well, he took our sub-study-program in Computer, Control and Electronic Engineering, specializing in Process Control Technology. I myself supervised his masters thesis. It was a research project to build a micro-controller-based control system for the unhulled-rice (*gabah*) drying system. The control system consists of a complex set of sensors and actuators integrated by the micro-controller functioning mainly to reduce the moisture of the unhulled-rice.

I have been so thoroughly impressed by Mr. Al Husaini's academic competence in his field, so that I wholeheartedly recommend him for any opportunity to continue his study to pursue a higher academic degree that will be very essential for his career as an academician and an engineering teacher.

Should you wish to get any further information, please feel free to contact me, and I will be more than happy to respond to your inquiries.

With kindest regards,

Dr.Ir.H. Rhiza S. Sadjad, M.S.E.E.
