CONFIDENTIAL LETTER OF REFERENCE (Continued)

4. Please describe the applicant's qualifications and potential for successfully completing further academic study in the U.S. Your insights on the following are greatly appreciated:
- Applicant's outstanding talents
 - How he or she compares with peers, both academically or in leadership roles
 - Observation on the applicant's character
 - Other comments or relevant insights that you can offer that are not likely available from other sources.

Ms. Herviana completed her first degree (*Sarjana Teknik*, S.T.) in 2012, in the Department of Electrical Engineering, Hasanuddin University, Makassar INDONESIA, where I myself have been with since 1983. She was one of my best students. Ms. Herviana took all of my classes, mostly in Electronics, Automatic Control and Linear Systems area. As I remember it, she always received excellent grades for her test-results, examination and class-papers. She graduated with a cumulative GPA of **3.70** out of **4.00**, which is almost perfect. Her final undergraduate project was a sensor system application for the supermarket stock management.

Before and after her graduation, Ms. Herviana has been helping me as my assistant to grade almost all my students' examination-papers and class-papers. She has done a perfect job; I have almost never received any complaint from students whose papers were graded by Ms. Herviana. This indicates that she is very accurate in doing her job. I also admire her ability to work hard, her strong motivation to learn and her competence in her field. I observed that she has no difficulty what so ever to work together with her colleagues, where in most cases she was – in fact - acting as their leader. During her tenure as a student, she was involved in many student organizations and activities, both in and off campus. She was the Vice President of an international youth organization named AIESEC. I am very proud of this young woman, and I am very happy to hear that she has planned to continue her study to a more advance degree in Electrical Engineering or related area. I strongly recommend her to do so, because I really believe she has a potential to contribute academically in this field in the future.
