LETTER OF RECOMMENDATION

To Whom It May Concern:

Mr. Imam Mashur, S.T. has asked that I prepare this official Letter of Recommendation to support his intention to continue his study to pursue a Masters Degree in Electrical and Computer Engineering, Information Technology, Computer Science or other related areas in a university overseas or elsewhere. I do so with great enthusiasm.

Last month, Mr. Imam Mashur completed his first degree (*Sarjana Teknik, S.T.*) in the Department of Electrical Engineering, Hasanuddin University, Makassar INDONESIA, where I myself have been with since 1983. He has been one of my best students since four years ago. Mr. Mashur took all of my classes, mostly in Automatic Control and Linear Systems area. As I remember it, he always received good grades for his excellent test-results, examination and class-papers. He graduated with a cumulative GPA of **3.75** out of **4.00**, which is almost perfect. He was one of a very few students of mine who had a very special interest in image processing and identification. For his final undergraduate project, Mr. Mashur has successfully implemented a fuzzy-logic-based algorithm to assist a medical doctor to diagnose an eye disease called *glaucoma*. Before admitted to our university in 2014, Mr. Mashur attended a vocational high school, so it is not surprising that he has a very strong background in electronics and computer programming. He participated in several programming contests, and won some prizes.

I also admire Mr. Mashur ability to work hard, his strong motivation to learn and his competence in his field. I observed that he has no difficulty what so ever to work together with his colleagues. I am very proud of this young man, and I am very happy to hear that he has planned to continue his education to pursue a Masters degree or even further.

I have been so thoroughly impressed by Mr. Mashur's academic competence in his field, so that I wholeheartedly recommend him for any opportunity to continue his study. I strongly believe that he will complete his continuing study program without any difficulty what so ever

Should you wish to get any further information, please feel free to contact me, and I will be more than happy to respond to your inquiries.

With kindest regards,

Dr. Ir. H. Rhiza S. Sadjad, M.S.E.E.
