LETTER OF RECOMMENDATION

To Whom It May Concern:

Mr. Rizana Fauzi, S.T. has asked that I prepare this official Letter of Recommendation to support his intention to continue his study to pursue a Masters Degree in Applied Science at the State Polytechnic of Electronics "Sepuluh November" (**PENS**) Surabaya. I do so with a great enthusiasm.

In 2009, Mr. Fauzi completed his first degree (*Sarjana Teknik*, S.T.) in the Department of Electrical Engineering, Hasanuddin University, Makassar INDONESIA, where I myself have been with since 1983. He was one of my best students. Mr. Fauzi took all of my classes, mostly in Automatic Control and Linear Systems area. As I remember it, he always received good grades for his excellent test-results, examination and class-papers. He graduated with a cumulative GPA of **3.26** out of **4.00**. He was one of a very few students of mine who had a very special interest in robotics. Mr. Fauzi designed a microcontroller-based temperature monitoring robot as his final undergraduate project. I believe he has become an excellent robot designer by experience and self-education. He was very active as a student both in intra-curricular and extra-curricular activities, especially those activities that are related to his interests in electronics, robotics and automation.

After his graduation, Mr. Fauzi took several jobs to enhance his practical and field experience in electronics and related area, until finally he took a teaching position at his home town, Palu, Central Sulawesi, and started his academic career as a lecturer at the State Polytechnic of Palu. It is only natural that he is now proposing to continue his study into a Masters program. Most certainly, I strongly recommended him to do so.

I have been so thoroughly impressed by Mr. Fauzi's academic competence in his field, so that I wholeheartedly recommend him for any opportunity to continue his study. I strongly believe that he will complete his continuing study program without any difficulty what so ever.

Should you wish to get any further information, please feel free to contact me, and I will be happy to respond to your inquiries.

With kindest regards,

Dr.Ir.H. Rhiza S. Sadjad, M.S.E.E.
