Mr. Zulhaidir Hamid completed his first degree (*Sarjana Teknik*, S.T.) in 2007, in the Department of Electrical Engineering, Hasanuddin University, Makassar INDONESIA, where I myself have been with since 1983. He was one of my best students. Mr. Zulhaidir Hamid took all of my classes, mostly in Electronics, Automatic Control and Linear Systems area. As I remember it, he always received excellent grades for his test-results, examination and class-papers. He graduated with a cumulative GPA of **3.21** out of **4.00**, which is satisfactory. His final undergraduate project was a web-based network management system, that was a relatively new area of study at the time in our department.

After his graduation, Mr. Zulhaidir Hamid has developed his career in the cellular telecommunication business for a couple of years before joining the state television broadcasting service as a transmission engineer. Now he is a high official in the state Ministry of Communication and Informatics, taking care of the radio frequency regulation. I am very proud of this young man, and I am very happy to hear that he has planned to continue his study to a more advance degree in Electrical Engineering or related area. I strongly recommend him to do so, because I really believe he has a potential to contribute academically in this field in the future.
