LETTER OF RECOMMENDATION

To Whom It May Concern:

Ms. Ferry Kristanty, S.T. has asked that I prepare this official Letter of Recommendation to support her intention to continue her study to pursue a Masters Degree in Electrical Engineering or other related fields of study at your university. I do so with great enthusiasm.

Ms. Ferry Kristanty completed her first degree in the Department of Electrical Engineering, Hasanuddin University, Makassar, INDONESIA, where I myself have been with since 1983. She was one of the best students; graduated in 2006 with the GPA of **3.30** out of **4.00**. I supervised her undergraduate final project on an electronic instrumentation system using the ultrasonic sensor. Her experience working on this project was very valuable for her future career as an engineer at the national state-owned electrical power company.

During her tenure as my student from 2001 to 2006, she took almost all my classes in the area of Automatic Control Systems and Industrial Electronics. She always made excellent grades. After her graduation, she applied for an engineering position in the Indonesian state-owned electrical power company. She was appointed as an assistant engineer for an electrical power plant construction project at almost no time, and continuously works in this field since then.

I have been so thoroughly impressed by Ms. Ferry Kristanty's personality as well as her technical competence in her field, and that she shows a strong motivation to continue her study and to seek knowledge, I wholeheartedly recommend her for any opportunity to pursue a higher degree program in her field.

Should you wish any further information, please feel free to contact me, and I will gladly respond to your inquiries.

Sincerely Yours,

Dr. Ir. H. Rhiza S. Sadjad, M.S.E.E.
