LETTER OF RECOMMENDATION

To Whom It May Concern:

Ms. Hasnawiya Hasan, S.T. has asked that I prepare this official Letter of Recommendation to support her intention to continue her study to pursue a Masters Degree in Electrical Engineering, Computer Engineering or other related area in Information Technology.

Ms. Hasnawiya Hasan completed her first degree (*Sarjana Teknik*, S.T.) last year in the Department of Electrical Engineering, Hasanuddin University, Makassar, INDONESIA, where I myself have been with since 1983. After completing her first degree in Electrical Engineering with excellent grades, Ms. Hasnawiya Hasan told me her intention to continue her study. This has proven to me how she values education highly.

I supervised Ms. Hasnawiya Hasan's undergraduate final project that she did closely with her partner, so that I was so thoroughly impressed by her technical competence in her field. The final project was a modelling and simulation project on the application of Programmable Logic Controller (PLC) for controlling the lubricating oil pressure of a Diesel engine in an electrical power plant. By completing this project, Ms. Hasnawiya Hasan and her partner have shown their great interest in learning about the new technology in the Control Engineering area so that I wholeheartedly recommend her for any opportunity to pursue a higher degree program in this field.

Should you wish any further information, please feel free to contact me, and I will gladly respond to your inquiries.

With kindest regards,

Rhiza S. Sadjad, Ir., M.S.E.E., Ph.D.
