LETTER OF RECOMMENDATION

To Whom It May Concern:

Ms. Hazriani, S.Kom., M.T. has asked that I prepare this official Letter of Recommendation to support her intention to continue her education in the field of Informatics, Computer Science or other related area.

In the mid 2001, Ms. Hazriani completed her first degree (*Sarjana Komputer*, S.Kom.) in Computer Engineering. She graduated from STMIK Handayani Makassar, one of prominent Computer Colleges in the city, with a cumulative GPA of **3.47** out of **4.00**. Her final undergraduate project was designing a personal computer-based digital integrated circuit tester.

After her graduation, Ms. Hazriani continued her study in our graduate program in the Department of Electrical Engineering, Hasanuddin University, Makassar, INDONESIA, to pursue her Masters degree in Engineering (*Magister Teknik*, M.T.). She has done it very well. She took our newly established program in Information and Communication Technology (ICT), specializing in Informatics. I myself supervised her masters thesis. It was a research project to develop an intranet-based automatic human resources evaluation system. She took the case of the regency government office at her own hometown. She did an excellent job in introducing an evaluation system of employee's performance index by allowing assessment not only by his or her superior, but also by his or her colleagues and subordinates. This was made possible by the intranet-based system Ms. Hazriani has designed.

I have been so thoroughly impressed by Ms. Hazriani's academic competence in her field, so that I wholeheartedly recommend her for any opportunity to continue her study to pursue a higher academic degree that will be very essential for her career as an academician.

Should you wish to get any further information, please feel free to contact me, and I will be more than happy to respond to your inquiries.

With kindest regards,

Dr.Ir.H. Rhiza S. Sadjad, M.S.E.E.
