## LETTER OF RECOMMENDATION

To Whom It May Concern:

**Ms. Nadia Novira, S.T.** has asked that I prepare this official Letter of Recommendation to support her intention to continue her study to pursue a Masters Degree in the fields of industrial technology and management - or any related area - in a university overseas or elsewhere. I do so with great enthusiasm.

About one year and a half ago, Ms. Nadia Novira completed her first degree (*Sarjana Teknik, S.T.*) in the Department of Electrical Engineering, Hasanuddin University, Makassar INDONESIA, where I myself have been with since 1983. She graduated with a cumulative GPA of **3.32** out of **4.00**, which she really deserved.

Ms. Nadia Novira has recently sent me her curriculum vitae, showing me her excellent career as an engineering-strategist in a corporation. Her position at a management level has allowed her to apply her skills and knowledge, especially in computer programming. I am very proud of this young lady, and I am very happy to hear that she has planned to continue her education. This indicates how she values education highly and how she appreciates it to support her future career.

I have been so thoroughly impressed by Ms. Nadia Novira's academic competence in her field, and that she showed a great interest in learning about the new skills and knowledge in the area of industrial management and technology, I wholeheartedly recommend her for any opportunity to pursue a higher degree program in this area. I strongly believe that she will complete her continuing study program without any difficulty what so ever.

Should you wish to get any further information, please feel free to contact me, and I will be more than happy to respond to your inquiries.

With kindest regards,

H. Rhiza S. Sadjad, Jr., M.S.E.E., Ph.D.
